

EDUCATION CONNECTION

WHEN BUSINESS AND ACADEMIA WORK TOGETHER
BRILLIANCE HAPPENS

Imagine a community where leaders in academia and commerce meet to determine how they can change the community and their respective industries for the better. Where educational institutions work with business leaders to determine what makes employees effective, what skills are needed in the workplace, and what curriculum give the student the best possible chance at being successful. Where academia provides research and expertise to local business to establish a competitive advantage found nowhere else. Some might say this sounds like ancient Greece, a utopian society, or maybe even Silicon Valley – but it’s happening in Tampa Bay via Education Connection!
